

IN DETAIL

From lab to container

We control every stage of the process to deliver uniform fruit of consistent quality.

1

Laboratory

At Merilab we multiply banana and plantain meristems under controlled conditions.

2

Nursery

Plants are acclimatized in our nurseries, where each one gets the care it needs.

3

Field

Technical crop management, bunch protection and cableway harvesting.

4

Packing plant

All fruit is washed, sorted, weighed and packed to standardized procedures.

5

Export

Palletized and loaded into refrigerated containers, ready to ship.

Key facts

1986

Operating since

1,000+
